## Go beyond your work capabilities with smart printing innovation

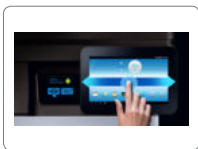

Samsung's new A3 mono multifunction printer (MFP) SMART MultiXpress K4250 / K4300 /K4350 Series provides smart usability that allows users to work faster and more efficiently using intuitive, easy-to-use controls. With high-performance and resource efficient features, these printers can meet the printing needs of small work groups that depend on reliable, cost-competitive document handling solutions, whilst lowering total cost of ownership (TCO).

### Models

K4250RX / K4300LX / K4350LX

## *MultiXpress* K4250/K4300/K4350 SERIES FEATURES

### SMART Touch

#### Touch to print, just like on a tablet

The SMART MultiXpress K4250R/ K4300 /K4350 series provides innovative usability through Samsung SMART UX Center as the very first Smart Android printing UX. Samsung SMART UX Center is a printing UX based on the Android OS and is the first of its kind in the printing industry.

This user-friendly UX provides intuitiveness, usability and extendibility at the same time, which ensures perfect compatibility with various Android-based smart devices.

#### Enjoy preloaded applications and widgets

Printing applications are preloaded, including Copy, Scan/Send, Box, Job Status, Counter, Settings, Build Job, Address Book and Help, which provides users with more convenient usability. Plus, there are custom widgets for creating instant, one-tap access to frequently used functions.

### Boost productivity with ultra-fast performance

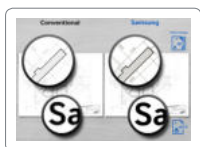

#### Scan at high rates

Smart MultiXpress K4250 / K4300 /K4350 Series is equipped with Dual-Scan ADF technology enabling them to deliver high, best-in-class scanning speeds. These workhorse MFPs can scan up to 80 single-sided images per minute (ipm) and up to 120 double-sided ipm.

#### Faster print processing with zero fuss

SMART MultiXpress K4250/ K4300 /K4350 Series prints at fast speeds of up to 35 pages per minute (ppm). A 1 GHz dual-core CPU provides the power and capacity to accomplish print and copy jobs of any size or complexity swiftly. Businesses can work smoothly and operate at a much more efficient level with high-performance speed printing.

# MultiXpress K4250/K4300/K4350 SERIES FEATURES CONTINUED

## Get sharper-quality print output

Samsung's unique Rendering Engine for Clean Page (ReCP) technology delivers professional-quality output with sharp text and clean images, ensuring a perfect printout every time. The innovative technology automatically sharpens the focus of both graphics and text. And with a superior resolution of 1,200 x 1,200 effective dpi, your scans, printouts and company will always look professional.

## Save resources with low TCO printing

Businesses can handle heavy printing volumes while reducing running costs with MultiXpress K4250 / K4300 /K4350 Series' ultra-high-yield toner cartridges and drums. Flexible options range from toners that yield 35,000 standard black and white pages, while drums yield 200,000 standard black and white pages. These long life consumables ensure businesses get the most out of their resources, resulting in lower TCO.

## Samsung Wireless & NFC printing option

The Samsung Wireless & NFC printing option\* can be added to support various mobile printing solutions with just a tap, including:

- User authentication: Enable authorised users to tap and print to a Samsung MFP from their mobile devices.
- Secure printing: Authorise secure release of documents held in the printer's memory with the BCPS and just a tap on your mobile device.
- Easy wireless setup: Configure wireless (IP) print setup from your mobile device without complicated activation steps with just a tap.
- Device cloning: Clone standardised functions of an MFP with just a tap on your mobile device.

\* Available October 2014

## Create your own printing environment with customised solutions.

Samsung's Business Core™ Printing Solutions (BCPS) work as efficiently as you do by providing cost-effective and secure print operation, increasing productivity and simplifying management. The solutions require no dedicated server or IT resources and reduce unnecessary printing and supply use, lowering TCO.

## SMART Manage

Personalise the UX through My Page. Enhance the UX by arranging and managing the environment, by user, with My Page. Simply customise the settings and quick menu for each individual user and you can keep track of a individual usage and control accessibility. Administrators can create quick custom apps directly on the devices. Instantly respond to different customers with one click by customising the UI configuration in a maximum of a minute.

Business Core Printing Solutions	Benefits
	enhances document security and reduces costs with user authentication
	guards valuable data and devices from unauthorized use
	increases productivity with an automated workflow solution
	Scans to and prints from the cloud with easy, secure access
	Controls printing expenses by easily tracking device usage per user
